Bradford Environmental Action Trust

*working towards a healthy sustainable environment,
which improves the quality of life for all people
in Bradford and the Yorkshire region*

FREE ENERGY SUPPORT AND ADVICE!

- **Are you worried by your energy bill and need to save money?**
- **Would you like free support for environmental improvements?**
- **Are you concerned about climate change and want to make a difference?**

We can BEAT climate change together – with a new project being delivered by Bradford Environmental Action Trust (BEAT) for Community Buildings in West Yorkshire. BEAT are offering the following services:

- Training events to help community centres understand & manage their energy.
- Advice and toolkits for any community organisation wanting to save energy.
- Free energy and water audits to eligible organisations.

BEAT are working across Bradford, Calderdale, Kirklees, Wakefield and Leeds and would like to hear from any community centre which wants to improve its energy and water efficiency. If you would like more information on how to be involved, or to see if you are eligible, please contact James on 01274 253440, or email james@beat.org.uk.

This project is part of the Community Cascade project - a partnership project funded by the Big Lottery fund. BEAT are providing similar support to community centres based within the South Pennine LEADER area, funded by the South Pennine LEADER fund (the LEADER fund is jointly funded by Defra and the European Union).
